I believe that masks are hurting our businesses, and our county's livelihood. Shoppers are taking their business to neighboring counties that do not have a mask mandate. There are many people who do not see a benefit to vaccination when you still have to wear a mask, so those people will not get vaccinated. Isn't vaccination the way to stop the spread?! Not a mask. My whole family (children included) are fully vaccinated. Why should we have to wear a mask when we have already done our part to stop the spread? It seems that those residents who are for a mask mandate, are the people who do not want to get vaccinated. I do not want to live the rest of my life wearing a mask, when I have done my part and got the vaccine. It's not right. It is control and power, and the actions of this county have made my husband and I rethink our lives here.
