As I understand the importance of the safety and well-being of our community is to our commissioners, I believe the mask mandate must come to an end. I am a vaccinated citizen that believes that there has been plenty of opportunity for our fellow citizen to get vaccinated. I also believe it should be the citizen right to choose if they want to wear a mask. I need to be honest, up until recently I was 100% for the mandate. I understood it. But as time has gone on, I believe this should end and it should be the choice of the individual, as well as the business. What I believe should be happening instead: - more vaccination clinics that do not require pre-registration. - more outreach to our vulnerable communities to get the vax to them - education on the proper masks to wear and giving these better masks to our vulnerable community. Instead of mandates, let's get our vaccination numbers up and our vulnerable community members masks that will keep them safe.
